REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly teach the device comprising a plurality of resilient replaceable grommets, each grommet including a lower end complementary sized and shaped to be tightly received within one of the holes in the upper disk, and wherein the grommets are individually deformable as the resurfacing device moves over the floor surface and encounters changes in the contours of the floor surface. For example, Miyazaki, US005507061A, figure 2, teaches a shock absorber **47** shaped to be received within a hole in an upper disk of a floor resurfacers, the absorber is not deformable as the device moves over the floor surface. The absorber reduces vibration and therefor noise caused by the electric motor that drives the device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
